**Q.** I was looking through the IBM iSeries Info Center searching for references to QDFTJRN, but was unable to find any. Where does one go to get this sort of info?

-- Paul Therrien

**A.** It's a V5R3 thing. I was checking out the page "What's new for V5R3" for database programming:

<http://publib.boulder.ibm.com/infocenter/iseriess/v5r3/ic2924/info/dbp/rbafowhatsnew.htm>

- where you find the following link "Implicit journaling when creating a physical file"

<http://publib.boulder.ibm.com/infocenter/iseriess/v5r3/ic2924/info/dbp/rbafimplicitjournal.htm>

Most of what I find on IBM's site is by accident - when I'm looking for something else (that I can't find)... :-)

Greetings from Copenhagen,  
Carsten Flensburg
