Bug Fix for Add Group Profile Command

[*System iNetwork Systems Management Newsletter*](#)

[Carsten Flensburg](#)

Carsten Flensburg

Wed, 06/07/2006 (All day)

I have discovered a minor problem in the Add Group Profile (ADDGRPPRF) command processing program published in the March 29 newsletter. The problem has now been corrected. The completion status report lacked an epilogue (summary) section if you specified *FILE for the user profile parameter. The revised version of the utility with the corrected version of program CBX853 is now available.
